Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-7, 9 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is rejected as being vague and indefinite when it recites "(a) to (e) being 100% by weight" at the ultimate line; the scope of the protection sought is not clear. Claim 1 fails to particularly point out and distinctly claim that the total of the wt% of (a) to (e) is 100% by weight.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

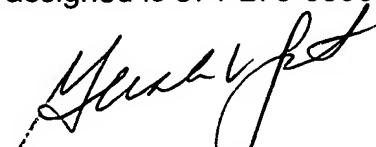

4. Claims 1-7, 9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Elzer et al. (U.S. Patent No. 4,725,524) in view of either Burri (U.S. Patent No. 4,154,463) or Iwasaki et al. (U.S. Patent No. 4,598,036).

Elzer et al. discloses a process for preparing a dry film resist, which process comprises forming a photocurable resin composition onto a support film with a thickness of 1 to 50 μ m and optionally laminate a protective film onto the photocurable composition

layer to obtain a dry film resist; whereby the photocurable resin is formed from a homogeneous mixture comprising (a) from 20-90 wt % of an alkaline soluble binder oligomer or polymer; (b) from 5 to 60 wt % of one or more photopolymerizable monomers which are compatible with the oligomers and polymers of component (a); (c) from 0.01 to 20% by weight of one or more photoinitiators; and (d) from 0 to 20% by weight of additives and/or assistants, wherein the total of the wt% of (a) to (d) is 100% by weight. Although Elzer et al. does not disclose the leuco triphenylmethane dye of the instant formula I, the use of the leuco triphenylmethane dye of the instant formula I as a color former in film resists as well known in the art, as illustrated in each of Burri and Iwasaki et al. It would have been obvious to one of ordinary skill in the requisite art at the time the invention was made to incorporate a leuco triphenylmethane dye of the instant formula I into the dry film resist of Elzer et al. as component (d) therein, with reasonable expectations of achieving, absent object evidence to the contrary, the advantages taught therein as well as those associated with the use of the leuco triphenylmethane compound.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Geraldine V. Letscher whose telephone number is (571) 272-1334. The examiner can normally be reached 8:00am to 4:30pm.
